

When Clean Is Critical

Certified: AMS 3819 (Class 1, Grade A, Form 1), BMS 15-5 (Class 1, Grade A), and all other Aerospace standards

Reliable: Non-abrasive, low lint, no residual contaminants

Versatile: Compatible with all solvents; effective across numerous applications

Convenient: Available in a variety of put-ups and sizes, pre-cut and customized

Rymplecloth® Wiping Cloths

Some of the most complex and regulated industries – aerospace, automotive, marine, food, pharmaceuticals and others requiring high standards of precision cleaning – trust Rymplecloth® wipers for maximum absorption and durability.

Rymplecloth® takes on a range of critical cleaning challenges, ridding smooth and curved surfaces of dirt, dust, carbon, greases, hydraulic and metalworking fluids, oils, paint and metal shavings, waxes and other debris.

#1 in Aerospace

Rymplecloth® is the number one product of choice in aerospace industry paint prep departments, and industry leader Boeing's wiping product of choice for over 50 years running.

The Difference is in the Details

Rymplecloth® 100% cotton wipers are scoured, giving them their signature off-white color. But what really sets them apart is function: A unique crimped finish and firmly twisted fibers create a surface that is unmatched for absorbing and trapping particles.

Once the job is done, Rymplecloth® leaves no contaminants and virtually no lint behind – just a clean, polished surface, primed for optimal performance.

Rymplecloth® Wiping Cloth

The Rymplecloth® Leadership Platform

With over 100 years of manufacturing experience, American Fiber & Finishing is the leading provider of light- to medium-weight woven industrial fabrics. Rymplecloth® is our flagship product, and it reflects the three core commitments to which we owe our industry standing:

Listening to Customers

When it comes to the challenges of critical cleaning, no one knows better than the people who meet them head-on every day. Our product development teams work closely with customers to ensure that our products enhance efficiency and performance, while making the job easier.

Meeting and Exceeding Industry Standards

- AMS 3819 (Class 1, Grade A, Form 1), BMS 15-5 (Class 1, Grade A), and all other Aerospace standards
- Sold by American Fiber & Finishing under an AS9120 certification

Protecting the Environment

Rymplecloth® wiping cloths are:

- 100% cotton
- Purified or scoured
- Biodegradable
- Silicone-free
- Chlorine-free
