

When Clean Is Critical

Certified: AMS 3819D and other aerospace standards per request

Reliable: Non-abrasive, low lint, no residual contaminants

Versatile: Compatible with all solvents; effective across numerous applications

Convenient: Available in a variety of put-ups and sizes, pre-cut and customized

Aerotex™ Wiping Cloths

Some of the most complex and regulated industries – aerospace, automotive, marine, and others requiring high standards of precision cleaning – trust Aerotex™ wipers for maximum absorption and durability.

Aerotex™ takes on a range of critical cleaning challenges, ridding smooth and curved surfaces of dirt, dust, carbon, greases, hydraulic and metalworking fluids, oils, paint and metal shavings, waxes and other debris.

A Leader in Aerospace

Aerotex™ is second only to our Rymplecloth® wipers in aerospace industry paint prep departments, and industry leader Boeing's wiping product of choice for over 50 years running.

The Difference is in the Details

Aerotex™ 100% cotton wipers are bleached white, and what sets them apart is function: A unique crimped finish and firmly twisted fibers create a surface that is unmatched for absorbing and trapping particles.

Once the job is done, Aerotex™ leaves no contaminants and virtually no lint behind – just a clean, polished surface, primed for optimal performance.

Aerotex™ Wiping Cloths

The Aerotex™ Leadership Platform

With over 100 years of manufacturing experience, American Fiber & Finishing is the leading provider of light- to medium-weight woven industrial fabrics. Along with our Rymplecloth® wipes, Aerotex™ is our flagship product, and it reflects the three core commitments to which we owe our industry standing:

Listening to Customers

When it comes to the challenges of critical cleaning, no one knows better than the people who meet them head-on every day. Our product development teams work closely with customers to ensure that our products enhance efficiency and performance, while making the job easier.

Meeting Industry Standards

- AMS 3819D qualified and certified
- Other aerospace standards per request

Protecting the Environment

Aerotex™ wiping cloths are:

- 100% cotton
- Chlorine-free bleached
- Biodegradable
- Silicone-free
