

Chemical Cloth™

The Right Choice for
Aerospace. The Right
Choice for You.

Product Names: C-60™, C-60™P,
C-60™BP

Aerospace Certified: Base material
qualified and certified to AMS 3819D

Reliable: Non-abrasive, low lint, no
residual contaminants

Convenient: Available in a variety of put-
ups and sizes, pre-cut and customized

Chemical Cloth™ Tack Cloth – Solvent Based

Life can be full of decisions and it's often hard to make an informed choice. At AF&F, we've made it easy for you to select the best chemical tack cloth for your most demanding jobs. Simply choose the one that has continually met the stringent requirements of the Aerospace industry: AF&F Chemical Cloth™. For more than 50 years, our tack cloths have been the premium "go to" products in the marketplace!

More Effective = More Efficient

AF&F Chemical Cloth™ Tack Cloths are as efficient as they are effective – because they're longer lasting, leave no residue, and do the job right the first time.

Excellence is Woven In

When a clean, contaminant-free surface is a must, our aerospace certified base material, including high-quality fabrics and proprietary tack materials, are widely acknowledged to be the best choice on the market. It all starts with biodegradable, low lint cotton or polyester gauze, incorporates our unique tack formulations and curing process and ends, as it should, with a perfect finish for your most critical applications.

Chemical Cloth™ Tack Cloth –

Leading from the Front

American Fiber & Finishing is America's leading manufacturer and provider of light- to medium-weight woven industrial fabrics – and has been for more than a century. Our Chemical Tack Cloth has itself been one of our industry's premier products for more than 50 years!

Listening to Customers

When it comes to the challenges of critical cleaning, no one knows better than the people who meet them head-on every day. Our product development teams work closely with customers to ensure that our products enhance efficiency and performance, while making the job easier.

Good to Know Facts:

- Base Fabric Material is AMS 3819D certified and is 100% low lint cotton or polyester. It all comes down to this.
- Silicone free
- Can be private labelled for re-sellers
- Traceability at the case level
- COC or COA for base material

Contact Us
