

A Solution for Every Job

Purewipe® Wiping Products

End users of AF&F products represent some of the most advanced and regulated industries in the world. From aerospace, aircraft and marine manufacturing to automotive and light industrial, their end products are as diverse as their individual cleaning and wiping needs. Our Purewipe® product line offers a solution for whatever their need may be:

Cheesecloth

Sponges and
Pads

Cotton
Swabs

Non-woven
Wipers

Setting the Standard

Every Purewipe® product meets or exceeds standards developed jointly by AF&F and Aerospace Industry engineers. Each is regularly lab-tested both internally and by third parties to ensure they consistently conform to required specifications.

No Job Too Big...or Too Small

Critical cleaning isn't limited to broad, smooth, structural surface areas; there are countless instances where the removal of contaminants or general cleaning is necessary. Cleaning delicate parts, removing debris in hard-to-reach areas, mixing, or filtration and straining – all these needs and more can be met with Purewipe® products
